

1. Write down the StationID from inside the AOS Box lid.

All information regarding the box is connected to this ID

2. Write down the following information in an e-mail:

- Name of the fish farming company**
- Name of the location**
- Exact GPS position for the AOS Box**
(this position state from where the log data is collected)

3. Send the e-mail to support@nortek.no

4. Receive User name and Password and take note of these somewhere safe

5. Open the site <http://realfish.akvagroup.com/> and log on with user name and password

Place velcro here
60 x 20 mm

6. It is now possible to follow the sensor logging data any time and from any location.
