### **Operations and profit**

The activity in the first two quarters of 2023 were high and above last year. Overall, the order intake was sound with the newly awarded RAS contract for Nordic Aqua Partners (MEUR 40) and the post smolt contract for Cermaq Norway (minimum MEUR 60) as the largest contracts. Profitability continuing to improve compared to previous quarters but is still below expectations. The Land Based business segment is still impacted by a high cost base compared to current activity level and by lower profitability in parts of the project portfolio. The profit margins in this part of the project portfolio were written down significantly in Q2 and Q3 2022 mainly due to cost inflations and will run at a lower profit margin until completion end of Q3 2023. The profitability in the Sea Based business segment was positively impacted by the product mix and the commercial breakthrough of deep sea farming concepts in the quarter.

The implications from the new resource tax remain uncertain. Most likely will the resource tax have a negative impact on activity level on short and medium term, especially within the post smolt market in Norway.

The potential liability of this is estimated at MNOK 7, due in 2023, and the amount is presented within the non-interest-bearing liabilities in the balance sheet.

#### Market and future outlook

The order backlog remains sound and was MNOK 2,884 (1,769) at the end of Q2 and forms a good foundation to execute the organic growth strategy.

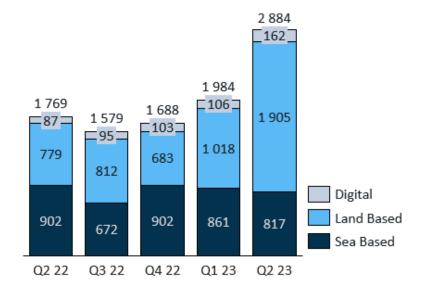

The implications from the introduction of new resource tax are uncertain. Most likely this will have a negative impact on the order intake level on short and medium term, especially in the post smolt market in Norway.

Based on the underlying demand for salmon AKVA group still believes in a strong market growth long term. To meet the future demand a significant part of the production will come from land-based facilities or other unconventional production methods.

AKVA group will continue to invest and improve solutions, both within Sea Based, Digital and Land Based Technology.

The Group is targeting minimum MNOK 4,000 in revenue and 6-8% EBIT margin in 2024.

#### Selected notes to the condensed interim consolidated financial statements

Note 1 General information and basis for preparation

AKVA group consists of AKVA group ASA and its subsidiaries.

In March 2022, AKVA group ASA and Egersund Net AS sold its shares in Atlantis Subsea Farming AS.

These condensed interim financial statements are prepared in accordance with International Accounting Standard 34, Interim Financial Reporting as adopted by the EU (IAS 34). The same accounting policies and methods of computation are followed in the interim financial statements as compared with the most recent annual financial statement. The condensed interim financial statements do not include all of the information and disclosures required by International Reporting Standards (IFRS) for a complete set of financial statements, and these condensed interim financial statements should be read in conjunction with the most recent annual financial statements. The annual financial statements were prepared in accordance with International Financial Reporting Standards and interpretations as issued by the International Standards Board and as adopted by the EU. A description of the significant accounting policies applied in preparing these condensed interim financial statements is included in AKVA group's consolidated financial statements for 2022. There have been no changes to significant accounting policies since the preparation of the annual financial statements for 2022. The condensed interim financial statements are unaudited.

Because of rounding differences, numbers or percentages may not add up to the total. The consolidated financial statements for the Group for the year ended 31 December 2022 are available upon request from the company's office at Plogfabrikkveien 11, 4353 Klepp Stasjon, Norway or at

## Note 2 Accounting principles

All significant accounting principles applied in the consolidated financial statement are described in the Annual Report 2022 (as published on the OSE on 15 April 2023).

AKVA group accounts for associates owned between 20% and 50% by using the equity method. Gain/loss on investments are recognized as other operating revenue, subject to the investment being of similar character and type as the other businesses within the group.

No new standards have been adopted in 2023.

In connection with the global instability and ongoing war between Russia and Ukraine, AKVA group has reviewed and assessed internal and external factors related to material discretionary items. AKVA group has, based on our assessment, made no write-downs for Q2 2023.

Related to restructuring of the Land Based Business area in Q3 2022 impairment tests were performed at different CGU levels. The result was an impairment of right-of-use asset and other fixed asset of MNOK 40.

Furthermore, a write down was made to loan to AquaCon of MNOK 28 in Q3 2022.

Note 3 Recognition and measurement of assets and liabilities in connection with acquisitions
