On track – with a good start of the year

First Quarter 2016 – HIGHLIGHTS

- **All business segments are performing well – best Q1 ever**
- **A broad mix of products and services contribute financially – becoming a stronger and more diversified Group**
- **Mid term target of 10% EBITDA achieved over the last 12 months**
- **Land based had a good quarter – becoming an important part of AKVA**
- **Farming Services – positioning ourselves for profitable growth**
- **Ending the quarter with the highest order backlog ever – the strong market activity continues into Q2**
- **Strong financial position**

Revenues and profits for the Group
(Figures in brackets = 2015 unless other is specified)

Operations and profit

AKVA group delivered its best first quarter ever. All business segments have performed well in Q1.

The cage based segment in the Nordic region continues strongly with a good performance in Q1, which usually is a low season quarter in this region. A broader range of products are contributing to the margins. There was low activity in Chile due to challenging market conditions. UK, Canada, Turkey and Australia have all achieved a good result in Q1.

Software continues with good performance and improved margins year on year.

The Land based segment is, as expected, improving the margins year on year and represented 20 percent of total revenue for the Group in Q1.

Continued strong market activity during Q1 has materialized in the highest order backlog ever for AKVA group for the third quarter in a row.

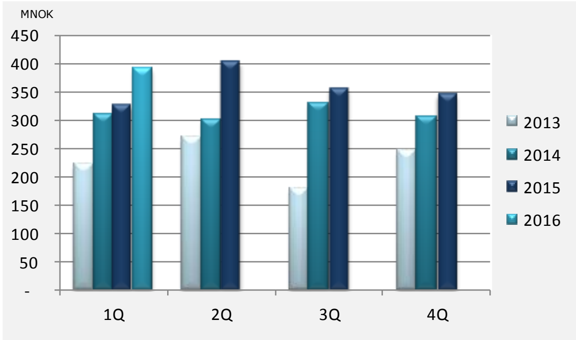
Balance sheet continues to be strong.

Total revenue in Q1 was 392.5 MNOK (325.0) with an EBITDA of 39.6 MNOK (26.6). EBIT was 25.0 MNOK (16.1).

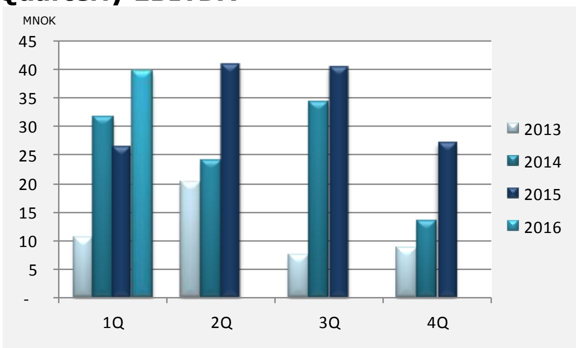
Net financial items in Q1 was -7.7 MNOK (1.5), resulting in a profit before tax of 15.4 MNOK (16.3). The increase in net financial items year on year in Q1 is mostly explained by currency movements and acquisition costs. These costs are on the higher side of what we consider as normal.

Net profit was 12.5 MNOK (11.4) after allowing for taxes of 3.0 MNOK (4.9).

Quarterly revenue



Quarterly EBITDA

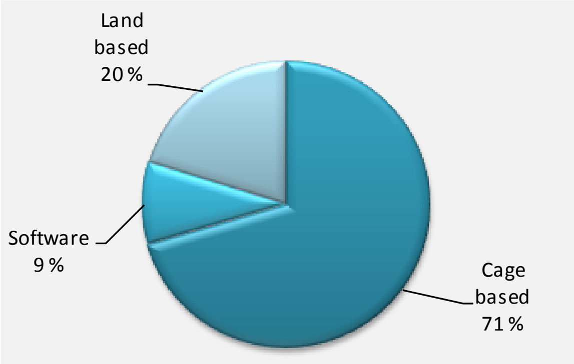


Business segments

AKVA group has organized its business into three technology segments;

- Cage based technologies (CBT): Includes cages, barges, feed systems and other operational technologies and systems for cage based aquaculture,
- Land based technologies (LBT): Includes recirculation systems and technologies for land based aquaculture, and
- Software (SW): Includes software solutions and professional services.

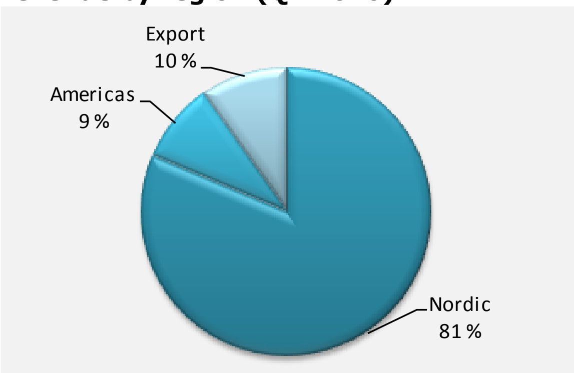
Revenue by segments (Q1 2016)



AKVA group also has organized its business into three geographical segments;

- Nordic: Includes the Nordic countries,
- Americas: Includes Americas and Oceania, and
- Export: Includes the rest of the world.

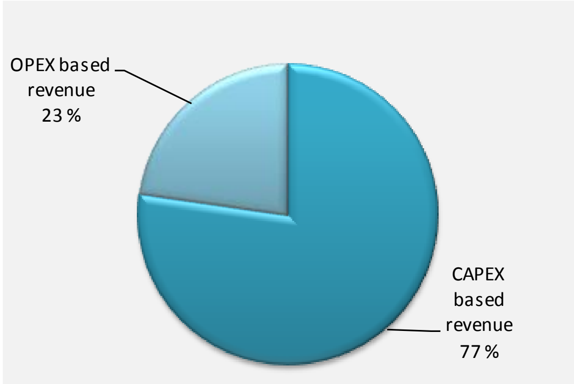
Revenue by region (Q1 2016)



AKVA group also divides its business between CAPEX and OPEX based revenue (formerly called recurring and non-recurring business);

- CAPEX based: Revenue classified as CAPEX in our customers' accounts
- OPEX based: Revenue classified as OPEX in our customers' accounts

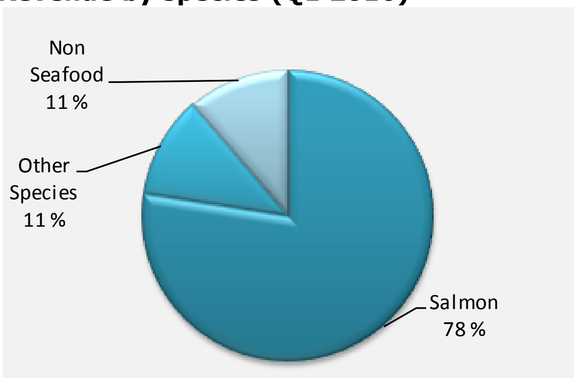
Revenue CAPEX or OPEX based (Q1 2016)



AKVA group business may also be divided between revenue from technology and services to salmon, other species and non-seafood;

- Salmon: Revenue from technology and services sold to production of salmon
- Other species: Revenue from technology and services sold to production of other species than salmon
- Non Seafood: Revenue from technology and services sold to non seafood customers

Revenue by species (Q1 2016)



The following information is divided into the three technology segments. Comments on the geographical segments are included where relevant.

Cage based technologies (CBT)

CBT revenue in Q1 was 276.6 MNOK (258.9). Revenue in the Nordic region was 208.2 MNOK (155.7), in the Americas region 31.1 MNOK (63.8) and in the Export region 37.3 MNOK (39.4).

EBITDA for CBT in Q1 was 28.3 MNOK (23.0) resulting in an EBITDA margin of 10.2% (8.9%). EBIT in Q1 was 18.3 MNOK (15.3) representing an EBIT margin of 6.6% (5.9%).

Nordic
Nordic CBT had a good performance in Q1. January and February is traditionally the two last months of the low season in the Nordic CBT segment.

A wide range of products continue to contribute to the good financial performance. Main drivers were the AKVAsmart products (sensors and feed systems), Barges and Polarcirkel cages.

Americas
We experienced low activity in Chile in Q1, as expected. Our revenue in Chile in Q1 was mostly related to service sales.

Canada had a similar start of the year as last year. Our Canadian operation is a lean and efficient operation.

Australia continues to be a smal, but profitable operation.

Export
UK had a decent start of the year and continues to have a high level of OPEX based revenue.

Turkey had a very good start of the year and is experiencing increased activity in the Sea Bass and Sea Bream industry.

Export to emerging markets experienced a slow quarter, but with increasing activity in some markets, especially in Iran. Emerging markets are dominated by a few but large contracts and this gives variations in the P&L quarter by quarter.

Software (SW)

Revenue for SW in Q1 2016 was 36.4 MNOK (30.8). The EBITDA was 6.4 MNOK (4.3) resulting in an EBITDA margin of 17.5% (14.0%) and an EBIT of 3.6 MNOK (2.0) representing an EBIT margin of 9.8% (6.5%).

AKVA group Software AS had a good start of the year.

Wise lausnir ehf experienced improved performance year on year in Q1.

Wise Blue AS, a Norwegian subsidiary of Wise lausnir ehf, is a small but profitable business.

Software continues to invest in new product modules, which is expected to strengthen the financial performance of the software segment further.

Land based technologies (LBT)

LBT Q1 2016 revenue was 79.6 MNOK (35.3) with an EBITDA of 5.0 MNOK (-0.7) resulting in an EBITDA margin of 6.3% (-1.9%) and an EBIT of 3.1 MNOK (-1.2) representing an EBIT margin of 3.9% (-3.4%).

LBT represented 20% of total Group revenue in the first quarter.

LBT have had a significant improved performance year on year in Q1.

Plastsveis AS is on track with a good start of the year.

Aquatec Solutions A/S also had a good performance in Q1.

AKVA group Denmark A/S had a decent quarter, but there is still potential for further improvements financially.

The Land based segment ended the quarter with a good order backlog. The large Land based contract of ~ MNOK 186 (MDKK 150) announced in a stock notice on April 4th, 2016 is not included in the Q1 2016 order backlog. It will be included in the Q2 order backlog in the next quarterly report.

Balance sheet and cash flow

The balance sheet remains strong.

The working capital in the Group balance sheet, defined as non-interest bearing current assets less non-interest bearing current liabilities was 64 MNOK at the end of Q1 2016, compared to 137 MNOK at the end of Q1 2015. Working capital as a percentage of 12 months rolling revenue has improved YoY from 10.8% to 4.3%. We are able to maintain a very low working capital despite record high activity.

Cash and unused credit facilities amounted to 230 MNOK at the end of Q1 2016 versus 147 MNOK at the end of Q1 2015. The total credit facility at Danske Bank is 90 MNOK.

Net interest-bearing debt was 71 MNOK at the end of Q1 2016 compared to 82 MNOK at the end of Q1 2015. Gross interest-bearing debt was 221.2 MNOK at the end of Q1 2015 versus 139.8 MNOK at the end of Q1 2015. The short term interest bearing debt includes the next 12 months installments of the long term debt. This is in accordance to current IFRS requirements.

Investments in Q1 2016 amounted to 23.1 MNOK of which 5.6 MNOK was capitalized R&D expenses in accordance to IFRS and 7.7 MNOK was related to rental. Total 2015 investments were 75.8 MNOK whereof 19.0 MNOK was capitalized R&D expenses in accordance to IFRS and 29.7 MNOK was related to rental. Annualized CAPEX as percentage of revenue was 6% in Q1 and annualized CAPEX as percentage of revenue in 2015 was 5%.

Return on capital employed (ROCE) in Q1 2016 ended at 17.9% (12.3%).

Total assets and total equity amounted to 1,117 MNOK and 435 MNOK respectively, resulting in an equity ratio of 38.9% (42.8%) at the end of Q1 2016.

Other shareholder issues

Earnings per share in Q1 2016 was 0.45 NOK (0.44). Earnings per share in 2015 was 2.20 NOK. The calculations are based on 25,834,303 (25,834,303) shares average.

The 20 largest shareholders are presented in note 4 in this report.

AKVA Marine Services AS – our new Farming Services vehicle

AKVA group ASA acquired 58% of AD Offshore AS on April 7th, 2016.

The acquisition of AD Offshore AS was a natural step in AKVA group's strategy to strengthen its position in the aquaculture industry service segment. We expect the market for farming services to the aquaculture industry to grow in the coming years and we expect a consolidation of the players. Through this acquisition, AKVA group ASA will be well positioned to participate in this development. AD Offshore AS presents significant synergies with our existing activity in this segment.

The process of merging YesMaritime AS and Rogaland Sjøtjenester AS with AD Offshore AS is expected to be finalized in Q2 2016.

AKVA group ASA will own 65% of the new merged company and the name of the new entity will be AKVA Marine Services AS.

AKVA Marine Services AS will be a lean and effective player in the farming services industry and will cover the farming services market in Rogaland and Hordaland.

AKVA Marine Services AS – Signed LOI with Techno Dive

AKVA Marine Services AS entered into a letter of intent regarding a possible acquisition of an inshore/offshore diving and aquaculture farming services provider, Techno Dive AS on May 10th, 2016. The parties aim to complete customary due diligence investigations and negotiations of a final purchase agreement by mid-June 2016, and if final terms are agreed, to complete the transaction by the end of June 2016. A transaction is expected to be settled in cash.

Techno Dive AS is a leading provider of safe and efficient subsea work, with worldwide experience through countless projects. The company is considered to be a good fit with AKVA Marine Services AS and is expected to strengthen its position in the Farming Services segment further.

Plastsveis – exercising call option to buy the remaining 30% of the shares

AKVA group ASA has exercised a call option to buy the remaining 30% of the shares in Plastsveis from the minority shareholders. The option could be exercised from January 2016 and onwards.

The call option was exercised in March 2016 and the transaction was finalized on April 11th, 2016.

AKVA group ASA paid MNOK 0.5 for the remaining 30% of the shares, giving a total price for 100% of the shares of MNOK 19.5. EBITDA in 2015 was MNOK 7.3. AKVA group ASA owns 100% of the shares in Plastsveis AS from April 11th, 2016.

Atlantis Subsea Farming AS

In partnership with the companies Sinkaberg-Hansen AS and Egersund Net AS, AKVA group ASA established the company Atlantis Subsea Farming AS on February 1st, 2016 with the purpose of developing submersible fish-farming facilities for salmon on an industrial scale. Atlantis Subsea Farming AS has applied for six development licences to enable large-scale development and testing of the new technology and operational concept.

The work on Atlantis started in summer 2014, and experts from all three companies have been and will continue to be involved in the work with the ATLANTIS concept.

Through its innovative development work, ATLANTIS aims both to contribute to better and more sustainable use of current farming sites, as well as to enable use of more exposed sites than is currently possible. The goal is to achieve production gains and improve fish welfare by submerging the facilities, as they will be far less exposed to the environmental and physical conditions than in a surface position.

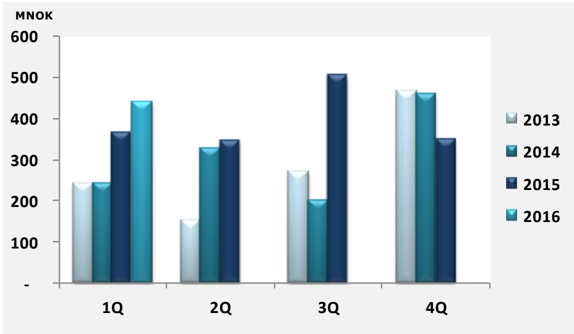
Large-scale testing will focus on third-party documentation of fish welfare and production performance, the technological capabilities of the system, and safeguarding the occupational health and safety of employees.

There are many risks associated with the project, and the testing of the technological and operational solutions requires large-scale testing beyond what can be done in today's fish farms based on traditional operating methods. The further progress of the project and our ability to ensure a methodical approach thus depends on us being granted development licences.

Although ATLANTIS represents a significant leap forward in terms of innovation, it is also an objective for the concept to keep costs at a level that helps strengthen the industry's competitive position. The aim is also that the technology and operating methods developed through ATLANTIS can be made available and adopted by the industry relatively quickly.

Market and future outlook

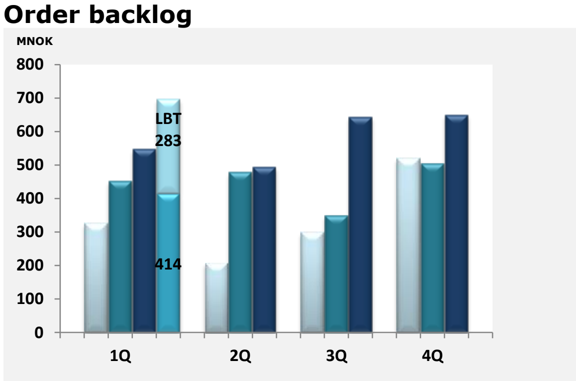
Order inflow



The order inflow in Q1 was 441 MNOK (367). The order backlog at the end of Q1 was 697 MNOK (547). This is the highest order backlog ever for AKVA group.

MNOK 283 of total order backlog at end of Q1 is related to Land based technology (LBT). The large Land based contract of ~MNOK 186 (MDKK 150) announced in a stock notice on April 4th, 2016 is not included in the Q1 2016 order backlog. It will be included in the Q2 order backlog in the next quarterly report.

Order backlog



We have a good mid term outlook due to high market activity and the large order backlog. The activity level is particularly high in the Nordic market segment.

The good demand in the Nordic cages based segment continues, with a shift towards sale of technology for more efficient production.

The Land based segment has experienced increased activity and this higher level of activity is expected to continue. The Land based segment is becoming a larger part of AKVA group.

UK and Canada experienced slightly less project sales so far compared to last year. Despite this both entities are expected to perform well in 2016.

We have continuing low expectations in Chile due to the challenging situation for our Chilean customers. Our exposure in Chile has reduced over recent years.

Our Turkey and Australian operations are expected to continue to perform well in the next quarters with a good order backlog.

Exports to emerging markets have seen a more optimistic start of the year than last year. The activity is still expected to fluctuate due to the nature of the business.

We continue our effort to build service and after sales as a key business element in all our markets and segments.

Selected disclosure notes

Note 1 General information and basis for preparation

AKVA group consists of AKVA group ASA and its subsidiaries. There have been no significant changes in the Group's legal structure since year-end 2015. AKVA group ASA acquired 58% of the shares in AD Offshore AS on April 7th, 2016. YesMaritime AS will, during Q2 2016, be merged with AD Offshore AS. The new company will be named AKVA Marine Services AS and AKVA group ASA will own 65% of the shares in this company. Please see the notifications to the Oslo Stock Exchange in Q4 2015 and Q1 2016 for more details about the acquisition of shares in AD Offshore AS.

The condensed consolidated interim financial statements are unaudited. Because of rounding differences, numbers or percentages may not add up to the total. The consolidated financial statements for the Group for the year ended December 31st, 2015 are available upon request from the company's registered head office at Nordlysveien 4, 4340 Bryne, Norway or at http://ir.akvagroup.com/investor-relations/financial-info-/annual-reports.

These interim financial statements are prepared in accordance with International Financial Reporting Standards and interpretations (IFRS), as issued by the International Accounting Standards Board (IASB) and as adopted by EU (EU-IFRS), including International Accounting Standard 34, Interim Financial Reporting. The quarterly report does not include all information and disclosures required in the annual financial statements and should be read in connection with the Group's Annual Report for 2015.

Note 2 Business segments

AKVA group is organized in three business segments; Cage based technologies, Software and Land based technologies. The same accounting principles as described for the Group financial statements have been applied for the segment reporting. Inter-segment transfers or transactions are entered into under normal commercial terms and conditions, and the measurement used in the segment reporting is the same as used for the actual transactions.

Note 3 Recognition and measurement of assets and liabilities in connection with the AD Offshore AS acquisition

The recognition and measurement of assets and liabilities in connection with the AD Offshore AS acquisition is not final in the consolidated financial statement as of March 31th, 2016. IFRS 3 permits adjustments to items recognized in the original accounting for business combination, for a maximum of one year after the acquisition date, if and when new information about facts and circumstances existing at the acquisition date is obtained. AKVA group will make a final assessment before this one year period comes to an end.
